HERCULEAN TASKS . . .

have been accomplished by the American people. We built our nation, won its wars, established its industry, and raised our standard of living to a degree where it has the envy of the world. None of this could have been accomplished without coordinated effort. Where many people work collectively towards a single objective, it is as necessary to success as the objective itself. It is a powerful force that makes our printing plant efficient. Every order we receive provides us with a new objective—to produce with economy truly excellent printing. To reach each new objective takes coordinated effort on the part of everyone working on the order. Such effort has made our plant a symphony of smoothness that means three things to you—excellent work, speed, and more value per dollar spent.

INTRODUCTION

FLANIGAN-PEARSON CO., publishers of the Champaign and Urbana City Directory, present to subscribers and the general public, this, the 1945 edition.

Confidence in the growth of this community's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Champaign and Urbana to the world.

The enviable position occupied by the Champaign and Urbana City Directory in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty coöperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Champaign and Urbana Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order—

THE MISCELLANEOUS DEPARTMENT presents lists of city and county officials; statistical reviews; manufacturing, trade and civic surveys; and a history of the University of Illinois.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 1 to 340, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Champaign and Urbana, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 44, on canary paper, contains the advertisements of leading manufacturing, business and professional interests of Champaign and Urbana. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Champaign and Urbana, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 401 to 438. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it

plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 441 to 526. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Champaign and Urbana.

The Champaign Directory Library

Through the courtesy of the publishers of the Champaign and Urbana City Directory, a Directory Library is maintained in the offices of the Champaign Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

CHAMPAIGN and URBANA

HISTORICAL, DESCRIPTIVE AND STATISTICAL SKETCHES OF THE TWIN CITIES

CHAMPAIGN

Statistical Review

FORM OF GOVERNMENT—Commission.

POPULATION—1940 U. S. Census, 23,302; local estimate at present, 26,000. American-born, 97.6%. Predominating nationalities of foreign-born residents: German and English.

AREA—10 square miles.

ALTITUDE—743 feet above sea level.

CLIMATE—Mean annual temperature, 50.5 degrees F.; average annual rainfall, 35.03 inches.

PARKS—24, with total of 36 acres.

ASSESSED VALUATION—\$15,179,283, with \$5.35 per \$100 tax rate.

FINANCIAL DATA—4 banks, with total deposits of \$30,402,000 (Dec. 31, 1944), and total resources of \$31,720,000 (Dec. 31, 1944).

POSTAL RECEIPTS—\$316,802.66 (calendar year 1943).

TELEPHONES IN SERVICE—13,716 (Champaign and Urbana).

CHURCHES—39, representing 22 denominations.

INDUSTRY—Chief industries of city and surrounding territory: Manufacturing and agriculture. 40 manufacturing establishments, employing 614 workers, paying wages of \$636,265 annually, and having products valued at \$4,686,615 annually (1939 report). Principal manufactured products: Drop forgings, gloves, bleachers, soy bean oil, road machinery, cement products, academic apparel, alloy castings, and railroad registers.

TRADE AREA—Retail area has radius of 35 to 50 miles, and population of 100,000.

NEWSPAPERS—3 daily and Sunday.

HOTELS—3, with total of 354 rooms. Also 7 small hotels.

RAILROADS—4: Illinois Central (main line), New York Central (branch line), Wabash (branch line), and Illinois Terminal (electric).

HIGHWAYS—U. S. 45 and 150; State 10.

AIRPORTS—2.

AMUSEMENTS—Largest auditorium in city seats 3,000 persons. 4 moving-picture theatres, with total seating capacity of 5,500 persons. 3 golf courses.

HOSPITALS—1, with 144 beds.

EDUCATION—University of Illinois. 12 public schools, including 1 senior high and 1 junior high. 2 parochial schools. Number of pupils in public schools, 4,000; in parochial, 420.

PUBLIC LIBRARIES—1, with 61,391 volumes.

CITY STATISTICS—Total street mileage, 97, with 66 miles paved. Miles of gas mains, 88; sewers, 130. Number of water meters, 10,187; light meters,

13,112; gas meters, 10,332 (Champaign and Urbana). Capacity of water works, 8,000,000 gallons; daily average pumpage, 3,500,000 gallons; length of mains, 671,752 feet (Champaign and Urbana). Fire department has 19 men, with 1 station and 6 pieces of motor equipment. Police department has 19 men, with 1 station.

General Review

Champaign originated in 1854, when the Illinois Central Railroad built its main north and south line two miles west of the village of Urbana. The village started at the railroad and was incorporated at that time as the village of West Urbana, its name being changed to Champaign in 1857. In 1860 the village of Champaign was incorporated as a city.

Champaign owes its growth to an act of the legislature in 1867, which awarded the University of Illinois to Champaign County. The steady growth of the University has been reflected in the growth of Champaign. The original location of the University was in Urbana adjacent to Champaign, but due to the expansion of the University, part of its grounds and buildings are on property originally part of Champaign.

Champaign is served directly by the main line of the Illinois Central Railroad; by the Indianapolis-Peoria division of the Big Four (New York Central); by the Wabash; by the Danville-St. Louis division of the Illinois Terminal (electric) Railroad; and by bus lines, including the Greyhound Line to Chicago, St. Louis, Indianapolis, Peoria and other points.

Several Federal and State paved highway routes converge in Champaign. These routes, and the many paved County highways radiating in all directions, together with excellent transportation facilities offered by rail and bus routes, make Champaign one of the leading down-state traffic centers.

Due to its location in a rich section of east central Illinois and to the large student body attending the University, Champaign has a large retail business. Its stores offer exceptional stocks of merchandise to customers who come from a wide area to shop here. A recent U. S. Census of Distribution showed Champaign-Urbana to be the seventh market in the state, with annual sales amounting to more than \$24,000,000.

Champaign and Urbana are served jointly by all utilities, and together have one of the finest sanitary districts and sewage-disposal plants anywhere. This plant has been widely copied by other cities. Rebuilding of plant and extension of mains now under construction.

With the commission form of government, a modern police department, and its fire department on the platoon system, Champaign is up-to-date and well equipped to handle its City business.

The large stadium and the men's gymnasium of the University located in Champaign bring the thousands of people who attend athletic events at the University directly to Champaign. The football games in the fall and the basketball games in the spring attract immense crowds from all sections of the state.

There are two Champaign airports. The University of Illinois Field is now under construction five miles southwest of Champaign, and, when completed, will be a Class 4 airport and one of the best in the U. S. It will be available for commercial use. The Champaign Airport, a private field, is located three miles northwest of Champaign and has facilities for storage and servicing of aircraft.

URBANA

“HOME OF THE UNIVERSITY OF ILLINOIS”

Statistical Review

FORM OF GOVERNMENT—Aldermanic.

POPULATION—14,064 (1940 U. S. Census).

AREA—9 square miles.

ALTITUDE—743 feet above sea level.

PUBLIC LIBRARIES—1, with 35,000 volumes.

CITY STATISTICS—Miles of streets, 51, with 37 miles paved. Fire department has 10 men, with 1 station and 3 pieces of motor equipment. Police department has 11 men, with 1 station.

General Review

Urbana, the “Home of the University of Illinois,” was founded as the seat of Champaign County in 1833, and 22 years later was chartered by the State Legislature. In 1867 the University of Illinois, which today has an enrollment of 14,000, was established in Urbana as a land-grant agricultural college.

Urbana is a dynamic community, as indicated by a 7.7% population increase in the past decade. A larger university enrollment, greater farm purchasing power, the development of industries, and the location of the Air Corps Technical School at Chanute Field, 14 miles northeast, have been factors in bringing about this increase.

The City's affairs are administered by business men in a business-like manner. A municipal debt is being rapidly diminished and no further indebtedness incurred. The tax rate has shown a decline of 18c per \$100 in the past two years.

An outstanding characteristic of the economic life of Urbana is stability. This is largely due to the somewhat fixed payroll of the University. Also, the community is very diversified industrially, the largest plant being the New York Central Railroad shops, which employs about 350 men. The degree of fertility of the surrounding farm land adds to the stability.

Urbana has become known as a residential center. 57% of its residents are home-owners. University faculty members, most of whom are here permanently, create a demand for good homes. A large proportion of the 350 officers stationed at Chanute Field live in Urbana, and commute.

As a result of the location of the University here, an unusually literate population makes Urbana a most desirable city in which to live and rear children.

The Illini Airport, containing 80 acres of level land and located on Route 45, only 2.3 miles from the business district, offers first-rate landing facilities. It is licensed as an airport by the Illinois Aeronautics Commission.

Being "The Home of the University of Illinois," Urbana is an educational center and consequently a convention center as well. Approximately 150,000 people, from all segments of the business and professional world, are attracted here annually by conventions, institutes, and short courses. Those attending the sports events at Red Grange's alma mater add to this number.

Because of the large student and faculty population, as well as the high farm purchasing power, Urbana is an important retail center with annual retail sales of more than \$5,000,000. Adequate parking space is one of the factors that make it attractive as a shopping center. The Association of Commerce provides three strategically-located free parking lots.

Leading manufactured products of Urbana are knock-down bleachers, butter and dairy products, athletic equipment and supplies, electrical supplies, chemical supplies, paints, castings, dehorner, cigars, harness, ice cream, burial vaults, mausoleums, high-powered microscopic lenses, scientific instruments, x-ray apparatus, and concrete ornaments. Urbana is also the home of the Urbana Laboratories, Inc., noted as makers of seed cultures.

In Urbana are located shops of the N. Y. Central Lines, which employ the largest number of men in any single industry of the city.

Urbana possesses very adequate transportation facilities, including the Big 4 (New York Central) Railroad, giving services to the east and west; the branch line of the Wabash, running to Sidney, and the Illinois Central, affording frequent services to Chicago and to the South. "A train your way every hour of the day" is provided by the Illinois Traction System, with accommodations east and west. Connections are made at Glover by trolley with the Chicago & Eastern Illinois Railroad for Chicago and St. Louis and by bus at Tolono with the main line of the Wabash for St. Louis and Detroit. Three Federal and State paved highways and many paved County roads extend in all directions, and bus service is given on all Federal and State highways.

Among other points of interest in Urbana besides the University of Illinois and its many attractions, are the Samuel T. Busey Library; the Outlook Tuberculosis Sanatorium; Cunningham Home of Children; Mercy Hospital; the Margaret Carle Memorial Hospital; one of the most up-to-date sanitary disposal plants in the country; a 110-acre, 18-hole golf course and country club; the Wesley Foundation; the State and Government experiment stations; the Urbana

Park Board's \$100,000 outdoor swimming pool, the finest in Illinois; and the \$250,000 First Methodist Episcopal Church.

An authority writes: "Urbana, home of the most important manufacturing plant in Illinois—that plant is the University of Illinois. Its raw materials are youth and ambition. Its product is men and women."

Detailed information concerning either the city, the University of Illinois, or the surrounding community and state, will be gladly supplied upon request by the Association of Commerce; address, Busey State Bank Building. An adequate, complete, and up-to-date information file is maintained. Accessibility to one of the best services of information in the state, the University of Illinois Library, with 1,200,000 volumes, makes such a file possible.

The University of Illinois

**"A VAST LABORATORY OF SCIENCE AND CITIZENSHIP,
BUILT BY AND FOR THE PEOPLE."**

Astride Wright Street, dividing line of the twin cities of Urbana and Champaign, is the down-state and main campus of the University of Illinois, 402 acres of buildings, lawns, trees, and gardens, with adjoining experimental farms totaling 1,127 acres, and the new airport of 762 acres nearby.

The university has been termed "one of the ten best educational institutions." Of its research it has been said that the benefits are "worth more than \$100,000,000 a year." The university's plant and equipment are valued at more than \$44,000,000. On the campus at Urbana-Champaign there are 78 major buildings and an equal number of other structures. Agricultural experiment fields are located in 24 counties of the state.

A second campus is located at Chicago, a part of the Illinois Medical Center on the city's near west side. This area is considered one of the greatest medical centers in the world today.

The graduates of the university and the benefits of the university are spread around the globe, both in peace and in war. Its graduates are doctors and teachers, lawyers and executives, engineers and farmers, men and women whose leadership and service has been of benefit to their communities, state and nation since the university opened 77 years ago. Benefits of University of Illinois research extend into homes, buildings, health, highways, railways, government, industry, agriculture, and almost every field of human interest and activity.

The task of the university is to train men and women and to carry on research. When the work of the world became war, the university bent its energies to win victory, but continued to look ahead to peace and post-war progress of the world. More than 166,000 young men and women have gone from its halls into the world since the first 50 students sat in the first class March 2, 1868. Of the alumni,

156,000 are still living and busy in the world's affairs. Its doors have been always open to any boy or girl who can meet its entrance requirements.

Today (June 12, 1945), 19,102 alumni are in the nation's Armed Services, and 518 have given their lives. More than 600 members of the staff have left the campus for war service. Results of peace-time research have been adapted to war uses, and war-time research undertaken.

Of 8,530 young men and women on its campus in the 1944-45 first semester, 853 are in the uniform of the Army or Navy; the Army specialized training reserve program and the Navy V-12 college training program.

Southern Exposure, Illini Union Building, University of Illinois

The war has not interrupted the university's teaching of civilian students— young women, and young men who though below draft age or otherwise out of the Army are busy preparing themselves at their own expense for places of responsibility and leadership. Among these students are a rapidly-increasing number of war veterans, men released from the services and eager to take up civilian life through education.

For these men and the thousands of veterans expected here when the guns cease firing, the university has set up a Division of Special Services for War Veterans, with broad flexible powers to meet promptly the individual problems of entrance requirements, credits, courses, and degrees. The division was created after more than a year of study of the problems of veterans.

The administration and faculty is striving to have the University as prepared for the peace to come as it was prepared for war when that came. It had adapted its program to the needs of national defense well before Pearl Harbor. It had given much thought to the tasks it could do if war came.

When it did come, President Arthur Cutts Willard offered the entire facilities and resources of the university to the government. He pointed out that the university's experience and capabilities lay in the direction of education and research. The government utilized the university's resources and facilities.

Carrying its war-time services from the campus to the people, the University's Division of Extension gave special emergency classes in Engineering, Science, and Management War Training to 32,256 war-plant workers in 76 industrial communities of Illinois. The Extension Service in Agriculture and Home Economics carried the latest information on farming methods and war-time needs from the farms to the men in the fields, and on home-making and war-time saving and salvage to the farm wives throughout Illinois. The College of Agriculture did its part in helping Victory gardeners of city and country to grow food.

From a quarter century of university research with soybeans came the agricultural resources which provide oil, plastics, and food needed today. Better farm crops, better farm animals, and better farming methods, developed in peace-time, have become tremendously important in war-time.

Of most of the university's war-time research, little can now be said. Many of the results of peace-time research have long since been put to war-time uses. Knowledge of rivets and welds learned from study of bridges is applied to building better warships. The university led in study of metals, completely revising some old concepts, and this knowledge is utilized to design and build better guns, tanks, and all forms of weapons and war machines. The university's research during 25 years improved the railroad rails, wheels, and brakes which safely and swiftly carry the men and machines of the nation at war.

When peace returns the University of Illinois will be even greater than when war came. It will be greater in experience and service, ready to continue the swift advance which its past 77 years has evidenced.

The State of Illinois was the last in the old Northwest Territory and in the Corn Belt group to establish a state university. Michigan, Indiana, Wisconsin, Minnesota and others had founded schools and turned out classes of graduates before Illinois legislators—largely through the efforts of the late Jonathan Baldwin Turner, a Jacksonville (Ill.) educator—established a State school at the twin cities of Urbana and Champaign in Champaign County.

In 1868 the Illinois Industrial Institute came into being. Governor Oglesby had approved the act incorporating the State University in 1867. A board of regents was chosen, and the Rev. John Milton Gregory, then president of Kalamazoo College at Kalamazoo, Mich., was named as the first regent. The university opened March 2, 1868, with an original registration of 50 students. The first curriculum was offered by a faculty of three. During the first term, instruction was given in algebra, geometry, physics, history, rhetoric and Latin.

The new institution grew rapidly, and by the end of the term, had 77 students and another faculty member. It soon stepped into the forefront of institutions linking practical laboratory work with classroom teaching. In 1868 laboratory

work in chemistry was provided. In 1869 laboratory work in botany began. The first shop instruction in any American university was begun in 1870, when a mechanical shop was equipped, and the next year wood shops and a testing laboratory were erected.

In 1870 the trustees voted to admit women students, and that fall 24 co-eds were enrolled. Certificates of accomplishment had been awarded students completing work, but in 1877 this was changed with the awarding of diplomas and conferring of degrees. In 1885 the name of the institution was changed from Illinois Industrial University to University of Illinois.

Growth of the academic departments has been steady and rapid. Graduate work began in 1892. Summer sessions started in 1894. Studies in law were organized as a school in 1896 and as a college in 1900. The School of Music was organized in 1897, and now is a part of the College of Fine and Applied Arts, which was organized in 1931. Business training was started in 1900, and organized into the College of Commerce in 1915. The School of Education was organized in 1905, and became a college in 1918. The School of Physical Education was organized in 1932. In 1897 the Library School was created by the acquisition of the School of Library Economy, which had been organized at the Armour Institute in Chicago in 1893, and was the fourth library school to be established in the nation. Journalism instruction was started in 1902, and the School of Journalism was organized in 1927.

A Chicago campus, now a part of the city's great West Side medical center, was started in 1896, when the University of Illinois acquired the Chicago College of Pharmacy, which had been founded in 1859. It was known as the School of Pharmacy until 1932, when it achieved college status. In 1897 the College of Physicians and Surgeons of Chicago, established in 1881, became affiliated with the University of Illinois, and in 1913 became a part of it. The Columbian Dental College, established in 1898, became affiliated with the University in 1901, and in 1905 was organized as the College of Dentistry.

Meanwhile, organized research developed alongside student training, on the basis that the duty of a great institution of this sort is not only to train new workers in every field, but also to discover and develop new knowledge. Agricultural research was begun at an early date, and the Agricultural Experiment Station was organized in 1888. The oldest soil-experiment fields in the nation and oldest corn experiment fields in the world, the Morrow plots, have been in continuous cultivation at the University of Illinois since 1876. The Engineering Experiment Station, first of its kind in America, was established in 1903; the Bureau of Educational Research was established in 1918; the Bureau of Business Research, in 1921; the Bureau of Community Planning, in 1934; and the Small Homes Council, in 1944. The University is headquarters for the Illinois State Natural History Survey, State Water Survey, and State Geological Survey.

Of every operating dollar, nearly 15 cents is spent directly for organized research. In addition, general research is carried on under the various colleges

and schools comprising the university. Results of research are published by the university for the benefit of everyone. Outstanding research has been carried on, and is still being carried on, in many fields, among them agriculture, railway engineering, civil engineering, home heating and air-conditioning, physics, chemistry and chemical engineering, and medicine.

The main University of Illinois campus, at Urbana-Champaign, is 50 miles northeast of the geographical center of the state, and 128 miles south of Chicago. The campus contains 402 acres. Adjacent to it is a farm of 1,127 acres. Agricultural experiment fields in 24 other counties total another 700 acres of land. Total university land holdings amount to 3,234 acres. On this the university has some 78 major buildings, 50 minor structures, and 26 houses being used temporarily for tenant purposes. The university's entire plant is worth more than \$44,000,000. At Urbana-Champaign are the general administrative offices; the Colleges of Liberal Arts and Sciences, Commerce, Education, Engineering, Agriculture, Law, and Fine and Applied Arts; the Schools of Journalism, Music and Physical Education; the Library School, and the Graduate School. In Chicago are the College of Medicine, Pharmacy and Dentistry.

The office of executive head of the University has been held by nine persons: Dr. Milton Gregory, regent from 1868 to 1880; Dr. Selim Hobart Peabody, regent protempore from 1880 to 1881 and regent from 1881 to 1891; Dr. Thomas Jonathan Burrill, acting regent from 1891 to 1894; Dr. Andrew Sloan Draper, president from 1894 to 1904; Dr. Edmund Janes James, president from 1904 to 1920; Dr. David Kinley, acting president from 1919 to 1920, and president from 1920 to 1930; Dr. Harry Woodburn Chase, president from 1930 to 1933; Dr. Arthur Hill Daniels, acting president 1933-1934; and Dr. Arthur Cutts Willard, president since 1934. Dr. George Dinsmore Stoddard will become the tenth president of the university July 1, 1946, when President Willard will retire.

Control of the University of Illinois is in a board of trustees consisting of the Governor and the State Superintendent of Public Instruction acting ex officio, and nine regular members elected directly by, and responsible to, the people of the state.

Printed Salesmanship and Orders

To win orders requires more influence than salesmen's occasional calls can exert. Sales resistance is obstinate. Competition steps in. The battle is on! The salesmen are up against it, unless—consistent, well planned, well printed advertising has taken the field in advance, like sturdy tanks before an advancing army.

Sales resistance is battered down by well-timed folders, booklets, broadsides, illustrated letters, skillfully campaigned and descriptive of the salesman's house and the quality and usefulness of its product. Printed salesmanship clears the field for personal salesmanship.

It plays a most vital part in any salesman's success. Prospective customers usually insist upon knowing something more about the salesman's house and product. With the help of advance advertising, confidence is inspired. Salesmen accomplish more.

Stimulate and close orders by allying, with personal sales calls, interesting and informative sales literature, mailed regularly.

Ask us for constructive suggestions.

"You're Not Talking to A Mass Meeting You're Talking to A Parade"

Never were those forceful words of Bruce Barton more forcefully presented—never has their correctness been more definitely proven than by the number of changes shown between issues of the city directory.

People move into town, out of town, they move about in town, change employment, change names, become of age and start to work, reach old age and retire and, last but not least, death takes its toll.

Some radical change affects the lives of 14 per cent of the population every year. That is why we issue the Champaign-Urbana city directory annually—in order that you may have accurate information.

PLEASE! Do Not Lend Your City Directory

IT COSTS YOU MONEY — Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

THE PUBLISHERS

Printed Salesmanship and Orders

To win orders requires more influence than salesmen's occasional calls can exert. Sales resistance is obstinate. Competition steps in. The battle is on! The salesmen are up against it, unless—consistent, well planned, well printed advertising has taken the field in advance, like sturdy tanks before an advancing army.

Sales resistance is battered down by well-timed folders, booklets, broadsides, illustrated letters, skillfully campaigned and descriptive of the salesman's house and the quality and usefulness of its product. Printed salesmanship clears the field for personal salesmanship.

It plays a most vital part in any salesman's success. Prospective customers usually insist upon knowing something more about the salesman's house and product. With the help of advance advertising, confidence is inspired. Salesmen accomplish more.

Stimulate and close orders by allying, with personal sales calls, interesting and informative sales literature, mailed regularly.

Ask us for constructive suggestions.

HERCULEAN TASKS . . .

have been accomplished by the American people. We built our nation, won its wars, established its industry, and raised our standard of living to a degree where it has the envy of the world. None of this could have been accomplished without coordinated effort. Where many people work collectively towards a single objective, it is as necessary to success as the objective itself. It is a powerful force that makes our printing plant efficient. Every order we receive provides us with a new objective—to produce with economy truly excellent printing. To reach each new objective takes coordinated effort on the part of everyone working on the order. Such effort has made our plant a symphony of smoothness that means three things to you—excellent work, speed, and more value per dollar spent.

"You're Not Talking to A Mass Meetign You're Talking to A Parade"

Never were those forceful words of Bruce Barton more forcefully presented—never has their correctness been more definitely proven than by the number of changes shown between issues of the city directory.

People move into town, out of town, they move about in town, change employment, change names, become of age and start to work, reach old age and retire and, last but not least, death takes its toll.

Some radical change affects the lives of 14 per cent of the population every year. That is why we issue the Champaign-Urbana city directory annually—in order that you may have accurate information.

CHAMPAIGN-URBANA CITY DIRECTORY

441

CHAMPAIGN-URBANA

Directory of Householders, Occupants of Office
Buildings and Other Business Places,

INCLUDING

A Complete Street and Avenue Guide

1945

Copyright, 1945, by Flanigan-Pearson Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled in with Named Streets in their regular Alphabetical order.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes householders and places of business having telephones.

Over Half a Century of Service

For more than half a century our records have served the people of Champaign County. Throughout all these years, daily postings have kept our abstract records completely and accurately up-to-date.

ABSTRACTS OF TITLE and Title Searches, prepared in modern and approved forms from these records will protect your titles and safeguard your investments. Every abstract of title prepared through our facilities is accurate, reliable and merchantable.

WE ARE OWNERS of several sets of abstract records, the only complete set of Abstract Records in existence in Champaign County. We are members of the Illinois Title Association and of the American Title Association.

Title Guarantee Insurance

The personnel of this organization are all residents of Champaign County, Illinois, having been born, reared, and educated in this community, and are primarily concerned that its clientele receive the highest degree of title service, which is possible to render.
